Bertelsmann SE & Co. KGaA

(until August 20, 2012: Bertelsmann AG)

NOTES FOR FISCAL YEAR 2012

Change of legal form

On May 4, 2012, the Bertelsmann AG Annual General Meeting resolved to change the legal form of Bertelsmann AG in accordance with Germany's Reorganization Act (*Umwandlungsgesetz*) to a partnership limited by shares (KGaA) while maintaining the Bertelsmann identity. The new legal entity is called Bertelsmann SE & Co. KGaA. The change in legal form was accompanied by a conversion from bearer shares to registered shares.

The change in legal form to Bertelsmann SE & Co. KGaA took effect at the time it was recorded in the commercial register at the Gütersloh district court (*Amtsgericht*) on August 20, 2012.

Bertelsmann Management SE, based in Gütersloh, is the general partner. It holds no capital shares. Bertelsmann Management SE has a share capital of €1.6 million.

Management of Bertelsmann SE & Co. KGaA is the responsibility of the general partner. The general partner is reimbursed for all expenses associated with managing the company business, including the compensation of its board members. These amounts are reported under other operating expenses.

Accounting principles

The annual financial statements of Bertelsmann SE & Co. KGaA have been prepared in accordance with the accounting principles of the German Commercial Code (HGB) for large corporations and the additional regulations of Germany's Stock Corporation Act (*Aktiengesetz*).

Balance sheet and income statement presentation

Certain items in the balance sheet and income statement have been combined for the sake of clarity. These items are broken down separately in the notes to the financial statements.

The income statement has been prepared according to the nature of expense method.

Accounting and measurement policies

The accounting and measurement policies of the previous year were maintained with the following exceptions.

- Profit participation rights reported under financial debt (previous year: under shareholder's equity)
- Profit participation dividends reported as interest expense (previous year: appropriation of net income)

Intangible assets; property, plant, and equipment

The option to capitalize internally generated intangible assets was not exercised. Acquired intangible assets of the noncurrent assets are measured at amortized cost, while items of property, plant, and equipment are measured at cost. The depreciation rates and methods are based on tax provisions. Adjustments are made if the estimated useful life differs. Depreciation is applied on a straight-line or degressive basis, though assets acquired after December 31, 2007, are depreciated only on a straight-line basis. Assets expected to suffer permanent impairment are written down to the lower fair value. Tangible assets whose acquisition costs are €410 or below are depreciated during the year of acquisition.

Financial assets

Financial assets are measured at cost. Assets expected to suffer permanent impairment are written down to the lower fair value. They are written up again as soon as the reasons for the impairments no longer apply. Long-term loans are recognized either at nominal value or at the lower net present value, depending on the coupon rate.

Receivable and other assets

Non-interest-bearing or low-interest receivables with a term of more than one year are recognized at their net present value, while all other receivables and other assets are recognized at their nominal value. All identifiable risks are accounted for through individual loss allowances.

Securities

Securities are carried at the lower of cost or market price on the balance sheet date.

Cash and cash equivalents

Bank balances, cash in hand, and checks are carried at nominal value. Foreign currency holdings are carried at the applicable exchange rate on the balance sheet date.

Provisions

Provisions for pensions and similar obligations are measured using the projected unit credit method. The biometric calculations are based on the 2005 G mortality tables issued by Dr. Klaus Heubeck. The pension provisions are calculated on a flat-rate basis for a term of 15 years at the average market interest rate specified by the Deutsche Bundesbank. The calculation also reflects future-oriented measurement parameters such as the rate of salary increase, rate of pension increase, and inflation rate.

The provisions for tax and other provisions are measured according to a reasonable commercial assessment. Provisions are measured at their respective settlement value. Future cost and price increases are taken into account where there are sufficient objective indications that they will arise. Provisions with a term of over one year are discounted at the average market interest rate for the last seven fiscal years corresponding to their remaining term. The applicable interest rate is published by the Deutsche Bundesbank.

Financial debt and other liabilities

Financial debt and other liabilities are stated at their settlement value.

Profit participation capital

Accounting Principle 1/1994 on the recognition of profit participation rights in the annual financial statements of corporations, issued by the Accounting and Auditing Board of the Institute of Public Auditors in Germany (IDW), lists the long-term nature of the investment as one of the conditions for reporting profit participation capital as equity on the balance sheet. The terms of the issued profit participation certificates give bearers termination rights beginning on June 30, 2017. The investment as of December 31, 2012, fell below the five-year mark and can therefore no longer be regarded as long term. For this reason, the profit participation capital of €413 million is reported under financial debt beginning in fiscal year 2012.

This change means that the compensation of €44 million for the provision of the profit participation capital is reported as an interest expense against net income and no longer under the appropriation of net income, as in the previous year.

Deferred taxes

Deferred taxes stem from temporary differences between values recognized under commercial law and the corresponding values under tax law. Loss carryforwards are included if deemed valuable. Deferred tax assets from loss carryforwards without corresponding deferred tax liabilities are reported only if a realization is expected within five years. Investments in partnerships are also taken into account for the purposes of determining deferred German corporation tax. Exercising the option under HGB 274 (1) sentence 2 means waiving the recognition of net deferred tax assets.

Deferred taxes are calculated for all the companies of the Bertelsmann SE & Co. KGaA consolidated tax group.

Assets held in trust

Security investments, other assets, and cash and cash equivalents held in trust by Bertelsmann Pension Trust e. V. under the contractual trust arrangement (CTA) are, from an economic point of view, still treated as held by Bertelsmann SE & Co. KGaA. These trust assets do not meet the requirements for fund assets set forth in HGB 246 (2) sentence 2.

Currency translation

Foreign currency receivables with a remaining term of one year or less are measured at the mean exchange rate on the balance sheet date, and foreign currency receivables with a remaining term of over one year are measured at the mean exchange rate on the entry date or the lower mean rate on the balance sheet date, provided there have been no valuation unit transactions.

Liabilities denominated in foreign currencies with a remaining term of one year or less are recognized at the mean exchange rate on the balance sheet date, and all other liabilities denominated in foreign currencies are recognized at the mean exchange rate on the entry date or the higher mean rate on the balance sheet date, provided there have been no valuation unit transactions.

Miscellaneous

Johannes Mohn Gesellschaft mit beschränkter Haftung, Reinhard Mohn Verwaltungsgesellschaft mit beschränkter Haftung, Bertelsmann Beteiligungs GmbH, and Mohn Beteiligungs GmbH have each notified the company that they hold more than one quarter of the shares. Johannes Mohn Gesellschaft mit beschränkter Haftung and Reinhard Mohn Verwaltungsgesellschaft mit beschränkter Haftung hold their shares both indirectly and directly.

Notes on the balance sheet

1 Intangible assets

	12/31/2012	Previous year
	€	€ millions
Acquired patents and similar rights, licenses	983,668.00	1
	983,668.00	1

The intangible assets are primarily in the form of acquired software programs.

2 Property, plant, and equipment

	12/31/2012	Previous year
	€	€ millions
Land, rights equivalent to land, and buildings	203,333,113.10	169
Technical equipment and machinery	179,530.00	-
Other equipment, fixtures, furniture, and office equipment	17,849,913.32	20
Advance payments and construction in progress	15,210,980.84	30
	236,573,537.26	219

The increase in the line item of land, rights equivalent to land, and buildings coupled with the decrease in line item of advance payments and construction in progress stems primarily from the completion of four logistics warehouses and one office building. These properties are leased to companies of the Arvato division.

3 Financial assets

	12/31/2012	Previous year
	€	€ millions
Investments in affiliated companies	10,746,023,792.56	10,726
Participations	5,000.00	-
Security investments	607,120,016.57	569
Other loans	51,404,328.77	49
	11,404,553,137.90	11,344

Financial assets with a carrying amount of €11,405 million account for approximately 80 percent of total assets.

The change in investments in affiliated companies is explained by the following:

The investment carrying amount of Bertelsmann Capital Holding GmbH increased €122 million due to a payment made by Bertelsmann SE & Co. KGaA in conjunction with the profit and loss transfer agreement between Bertelsmann Capital Holding GmbH and RTL Group Deutschland GmbH. Impairments on financial assets increased by €117 million. This change stems primarily from the impairments of €119 million on shares in Media Communication S.A.S. in Paris and of €42 million in Societa Holding Industriale di Grafica S.p.A. as well as write-ups on shares in Bertelsmann Österreich GmbH in Vienna (€21 million) and Bertelsmann Nederland B.V. in Vianen (€28 million).

The security investments are shares in various funds held and managed by Bertelsmann Pension Trust e.V. Their purpose is to hedge and fulfill the pension obligations of Bertelsmann SE & Co. KGaA and selected subsidiaries.

The other loans are a loan with a final maturity date of May 31, 2016.

Movements in non-current assets

	12/31/2011 € millions	Increase € millions	Decrease € millions	Reclassi- fications € millions	Gross value 12/31/2012 € millions	Accumu- lated de- preciation 12/31/2012 € millions	Net book value 12/31/2012 € millions	Net book value 12/31/2011 € millions	De- preciation in fiscal year € millions

	8	-	-	-	8	7	1	1	1
Tangible assets									
Land, rights equivalent to land, and buildings	295	14	-	28	337	133	204	169	7
Technical equipment and machinery	19	-	-	-	19	19	-	-	-
Other equipment, fixtures, furniture, and office equipment	80	2	2	-	80	62	18	20	4
Advance payments and construction in progress	30	13	-	-28	15	-	15	30	-
	424	29	2	-	451	214	237	219	11
Financial assets									
Investments in affiliated companies	11,530	136	-	-	11,666	920	10,746	10,726	166
Participations	-	-		-	-	-	-	-	-
Security investments	570	107	69	-	608	1	607	569	-
Other loans	49	2	-	-	51	-	51	49	-
	12,149	245	69	-	12,325	921	11,404	11,344	166
	12,581	274	71	-	12,784	1,142	11,642	11,564	178

Write-ups of €49 million were taken in fiscal year 2012 on investments in affiliated companies.

4 Receivables and other assets

	Maturing after 12/31/2012 more than 1 year		
	€	€	€ millions
Accounts receivable from affiliated companies	-	844,213,155.73	1,071
Accounts receivable from participations	-	4,046.00	-
Other assets 41,854,	504.63	68,280,025.28	82
		912,497,227.01	1,153

Among the receivables from affiliates, €71 million involves companies in Germany and €773 million involves companies abroad. The decline in receivables stems primarily from the repayment of a loan by Bertelsmann SE & Co. KGaA to Reinhard Mohn GmbH, Gütersloh, in the amount of €142 million.

The other assets consist primarily of the German corporation tax balance from the former tax credit procedure. Repayment will take place over a period of five years.

Among the other assets, €54 million is held in trust and inaccessible.

5 Securities

	12/31/2012	Previous year
	€	€ millions
Other securities	24.00	46
	24.00	46

The securities reported in the previous year were procurement costs for partial buybacks of the bonds issued in September 2006. The securities were netted against these bonds when they matured on September 26, 2012.

6 Cash and cash equivalents

	12/31/2012	Previous year
	€	€ millions
Cash and cash equivalents	1,612,408,533.43	668
	1,612,408,533.43	668

€54 million of the cash and cash equivalents are held and managed in trust.

7 Prepaid expenses and deferred charges

	12/31/2012	Previous year
	€	€ millions
Debt discount	13,192,376.21	5
Other prepaid expenses	1,445,529.85	2
	14,637,906.06	7

The debt discount stems from the bonds maturing in 2014, 2015, 2016, 2022, and 2032 and the promissory notes maturing in 2014. The discount is amortized on a straight-line basis over the individual terms of the bonds.

8 Subscribed capital

	12/31/2012	Previous year
	€	€ millions
Subscribed capital	1,000,000,000.00	1,000
	1,000,000,000.00	1,000

The share capital is divided into 83,760 no-par registered shares.

9 Retained earnings

	12/31/2012	Previous year
	€	€ millions
Legal reserve	100,000,000.00	100
Other retained earnings	2,362,000,000.00	1,962
	2,462,000,000.00	2,062

The other retained earnings developed as follows during the fiscal year:

	€
Balance as of 12/31/2011	1,962,000,000.00
Addition from 2012 net income	100,000,000.00
Addition to retained earnings per resolution of Annual General Meeting	300,000,000.00
Balance as of 12/31/2012	2,362,000,000.00

10 Pensions and similar obligations

	12/31/2012	Previous
		year
	€	€ millions
Pensions and similar obligations	235,493,973.00	227
	235,493,973.00	227

Pension expenses of €12 million were paid out in 2012.

Pension provisions were calculated at the average market rate of 5.06 percent p.a. (previous year: 5.13 percent p.a.) specified by the Deutsche Bundesbank for October 2012. The calculation assumed a rate of salary increase of 2.25 percent p.a., a rate of pension increase of 1.8 percent p.a., and an inflation rate of 1.8 percent p.a.

In order to fulfill certain obligations relating to employee pension plans, the corresponding funds are invested in a pension plan reinsurance scheme and in securities. These are used solely to meet the pension obligations and are not accessible to the other creditors. The pension plan reinsurance policy is used to cover amounts for higher pension provision. The pension plan reinsurance is measured at the capitalized value derived from the fund capital calculated at the end of the insurance period or at least derived from the guaranteed redemption value, where such a value has been agreed, or derived from the budgeted fund capital. The securities are used to fulfill corresponding assurances to employees. Measurement is at fair value. Changes in fair value and current income of the fund assets are reported in the net interest income. The relevant provisions are recognized at the fair value of the securities in accordance with HGB 253 (1) sentence 3. In accordance with HGB 246 (2) sentence 2, fund assets have been netted against the underlying obligations. The earnings of €385 thousand generated by the fund assets were netted together with the interest expenses from the corresponding pension obligations at €385 thousand.

Netted amounts in accordance with HGB 246 (2) sentence 2:

	12/31/2012	Previous year
	€ millions	€ millions
Settlement value of the obligations	11	11
Fair value of fund assets	11	11
Difference	-	-
Acquisition costs of the fund assets	10	9

11 Other provisions

	12/31/2012	Previous year
	€	€ millions
Provisions for taxes	7,043,378.37	14
Other provisions	91,862,064.71	88
	98,905,443.08	102

The other provisions relate primarily to personnel costs of €36 million and an obligation of €44 million to service profit participation rights.

12 Financial debt

	Maturing in less than 1 year	More than 5 years	12/31/2012	Previous year
	€	€	€	€ millions
Bonds and promissory notes	-	910,000,000.00	3,377,000,000.00	3,057
Profit participation capital	-	-	412,596,446.28	-
Other financial debts	58,220.61	-	58,220.61	-
	58,220.61	910,000,000.00	3,789,654,666.89	3,057

The bonds and promissory notes are composed as follows:

Туре	€ millions	Maturity	Nominal interest in %
Bonds	750	1/16/2014	7.875
Promissory notes	187	2/25/2014	5.050
Promissory notes	30	3/24/2014	6.000
Bonds	500	10/6/2015	3.625
Bonds	1,000	9/26/2016	4.750
Promissory notes	60	5/4/2019	4.207
Bonds	750	8/2/2022	2.625
Bonds	100	6/29/2032	3.700

Bertelsmann bought back its own promissory notes with a nominal value of €30 million in fiscal 2012. In addition, Bertelsmann swapped promissory notes maturing in 2014 with a nominal value of €60 million for promissory notes with the same value maturing in 2019. Bertelsmann also took advantage of low interest rates in fiscal 2012 to raise long-term capital. In June 2012, a private placement in the amount of €75 million was carried out as part of the existing Debt Issuance Program with a twenty-year term. This was increased by a further €25 million in July 2012 to a total of €100 million. Also in July 2012, a benchmark bond with a ten-year term was issued in the amount of €750 million. In September 2012, a bond with an issue volume of €500 million was redeemed. €45 million of this bond was already acquired in advance via the capital market.

Profit participation certificates with a nominal value of €301,329,017.75 were listed for trading on the balance sheet date. The nominal value of the profit participation capital consists of profit participation certificates of €284,344,650 issued in 2001 (ISIN DE 000 522 9942) and profit participation certificates of €16,984,367.75 issued in 1992 (ISIN DE 000 522 9900).

The participation certificates may only be terminated by the bearers beginning on June 30, 2017.

The terms of the 2001 participation certificates state that for each full fiscal year, 15 percent of the nominal value is paid if, after an adjustment for impairments of goodwill that negatively affect earnings, there is sufficient consolidated net income and net income of Bertelsmann SE & Co. KGaA, increased by any profits carried forward and reduced by any losses carried forward and contributions to the legal reserves. If the total return on capital of the Group in any one fiscal year is negative, the profit participation certificates absorb a share of the loss. The share of the loss is calculated as a percentage of the total negative return on capital relative to the nominal value of the profit participation certificates. Any such share in losses must be offset by shares in profits in subsequent years. In the event of liquidation or bankruptcy, repayment claims by the bearers of the profit participation certificates are subordinated to the claims of third-party creditors.

The distribution on the 1992 profit participation certificates is based on the total return on capital employed for the Group, calculated according to section 4 of the terms of issue of the 1992 profit participation certificates.

13 Other liabilities

	Maturing in less than 1 year	More than 5 years	12/31/2012	Previous year
	€	€	€	€ millions
Trade accounts payable	6,675,964.32	-	6,675,964.32	4
Liabilities to affiliated companies	3,003,679,127.61	-	3,003,679,127.61	2,571
Liabilities to participations	144,756.93	-	144,756.93	-
Other liabilities				
- Liabilities for taxes	22,689,570.91	-	22,689,570.91	20
- Liabilities for social security benefits	1,171,827.68	-	1,171,827.68	1
- Other	97,615,545.79	-	97,615,545.79	95
	3,131,976,793.24	-	3,131,976,793.24	2,691

Among the liabilities to affiliates, €2,009 million involve companies in Germany and €995 million involve companies abroad. The increase in liabilities to affiliates stems primarily from the increase in a loan by Bertelsmann Capital Holding GmbH, Gütersloh.

The liabilities to affiliated companies include liabilities of €14 million to general partner Bertelsmann Management SE.

The loan of RTL Group S.A., Luxembourg, of €351 million and that of Gruner + Jahr AG & Co KG, Hamburg, of €163 million are collateralized by liens on investments.

14 Deferred income

	12/31/2012	Previous year
	€	€ millions
Premium	1,673,457.45	3
Other deferred income	115,700.00	-
	1,789,157.45	3

The premium stems from the bonds of €750 million maturing in 2014 and the promissory notes maturing in 2019. The reversal is on a straight-line basis over the terms of the bonds.

Shares in investment funds

Shares held in German or comparable foreign investment funds as defined by section 1 of the German Investment Act (InvG) have a carrying amount of €426 million as of December 31, 2012. The fair value of €525 million exceeds the carrying amount by €99 million. Fixed-interest securities account for €404 million of the fair value, equity investments for €108 million, and cash and cash equivalents for €13 million. The articles of association stipulate that the investment assets be distributed, but it was agreed by special resolution that the disbursable profits from 2012 be reinvested in investment funds.

Contingent liabilities

	12/31/2012	Previous year
	€ millions	€ millions
Liabilities from		
Guarantees	477	1,061
Warranties	951	309
	1,428	1,370

Guarantees include rent guarantees totaling €287 million and guarantees for the repayment of loans from various Bertelsmann Group companies totaling €186 million.

Guarantees totaling €471 million were also issued to fulfill obligations under various Microsoft Vendor Services Agreements. Bertelsmann SE & Co. KGaA has taken over a guarantee to the creditors for the private placements of €304 million (US\$400 million) issued by Bertelsmann US Finance, Inc. These guarantees are shown as liabilities from guarantee agreements.

Bertelsmann SE & Co. KGaA issued 30 letters of comfort with a due date amount of €16 million.

Bertelsmann SE & Co. KGaA enters into contingent liabilities only after carefully weighing the risks and only in connection with its own business activities or those of its affiliated companies. On the basis of a continuous risk assessment of the contingent liabilities entered into and taking into account all findings up to the preparation of the annual financial statements, Bertelsmann SE & Co. KGaA currently assumes that the obligations on which the contingent liabilities are based can be fulfilled by the respective principal debtors. For this reason the risk of a claim being made on the basis of the contingent liabilities is considered to be very unlikely.

Other financial commitments

As of the reporting date, other financial commitments from rental and lease agreements came to €85 million (previous year: €74 million). All obligations were to non-Group third parties.

Derivatives

Nominal values	12/31/2012	
		year
	€ millions	€ millions
Foreign exchange hedging transactions with affiliated companies with third parties	216 797	273 587
Interest rate hedges with affiliated companies with third parties	110 87	109 109
Commodity future transactions with affiliated companies with third parties	2 2	5 5
	1,214	1,088

Fair values	12/31/2012	Previous year
	€ millions	€ millions
Foreign exchange hedging transactions with affiliated companies with third parties Interest rate hedges with affiliated companies	-2 -6 +3	+6 -11 +1
with third parties Commodity future transactions	-3	-1
with affiliated companies with third parties	0	-3 +3
	-8	-5

Derivative financial transactions are used to control the risks from interest rate, currency, and commodity price fluctuations from the operations of the subsidiaries and from financial transactions. These transactions include forward-exchange transactions and interest rate swaps.

Forward commodity transactions are also used to limit risks from commodity price fluctuations from operations. The transactions are conducted only with banks with a first-class credit rating. The derivatives' fair value is taken into account when assessing the risk of default. Contracting and documentation are subject to strict internal controls. Allowances are made for the risks from the transactions as of the balance sheet date.

The derivatives have terms of up to five years.

Bertelsmann SE & Co. KGaA uses opposing currency valuation units to reduce the risks from changes in value arising from intercompany financing in foreign currencies. If the accounting requirements have been met, underlying and hedging transactions are consolidated into portfolio hedges. This includes intercompany foreign currency financing with a volume of €495 million. The risks hedged using portfolio hedges total €11 million.

Derivatives are also used to hedge the currency risks of subsidiaries. Foreign currency transactions with external counterparties and the opposing foreign currency transactions with subsidiaries with a nominal value of €215 million are also consolidated into the portfolio hedges. Portfolio hedges are shown separately for each currency, so that each portfolio only consolidates risks that are similar. This similarity among a portfolio's transactions means that changes in value during the term of the hedge are equalized. The portfolio hedges cover risks totaling €4 million. The "critical terms match" is applied at the outset to demonstrate the prospective effectiveness of the hedge. The term of the hedge begins when the hedge is transacted. A sensitivity analysis is conducted to demonstrate the prospective effectiveness as of the balance sheet date.

The "dollar offset" method is applied to demonstrate the retrospective effectiveness of the hedge. This involves comparing the change in fair values of the underlying and hedge transactions from the start of the hedge to the balance sheet date. Any unrealized losses not fully offset by unrealized profits are reported as expenses. No ineffective hedges were reported among the portfolio hedges documented as of the balance sheet date.

Additional derivatives are used to hedge against fluctuations in commodity prices and the risk of changes in interest rates for subsidiaries. The hedges negotiated with external counterparties and the opposing derivatives with subsidiaries of equal volume yield micro-hedges that balance the changes in value of their respective transactions. Micro-hedged risks account for less than €1 million. The critical terms match using the dollar offset method demonstrates both the prospective and retrospective effectiveness.

Hedges are reported using the net hedge presentation method.

The fair value of forward-exchange transactions was determined using the current forward-exchange rate for the remaining term of each transaction as of December 31, 2012, and discounted to the balance sheet date. The fair values of interest rate swaps are determined by discounting the future cash flows based on the respective market interest rates and interest rate structure curves on the balance sheet date. The fair value of forward commodity transactions was derived from the stock exchange listings published on the balance sheet date. Any discrepancies with the standardized stock exchange contracts are reflected through interpolation or additions.

Notes on the income statement

15 Income from participations

	2012	2011
	€	€ millions
Income from profit and loss transfer agreements	734,106,308.82	771
Income from investments		
- from affiliated companies	56,901,441.32	54
- from third parties	-	-
Expenses from loss assumption		
- from affiliated companies	113,960,868.75	28
- from third parties	1,611.89	-
	677,045,269.50	797

Income from profit and loss transfer agreements stems primarily from the net income of Bertelsmann Capital Holding GmbH. Bertelsmann Capital Holding GmbH contributed profits of €723 million (previous year: €671 million).

16 Other operating income

	2012	2011
	€	€ millions
Income from costs re-charged to Group companies	51,728,808.63	54
Leasing and rental income	24,747,638.64	24
Other operating income	163,744,931.32	112
	240,221,378.59	190

Other operating income includes €30 million from the reversal of allowances for bad debt at the Group level. This line item also includes material and secondary revenues, income from the reversal of provisions, and currency and exchange rate gains, of which some €0.3 million are not yet realized.

The year-on-year increase is due primarily to the write-up on shares in the subsidiaries of Bertelsmann Österreich GmbH and Bertelsmann Nederland B.V. totaling €49 million in the fiscal year.

Of the other operating income, €61 million is attributable to earlier fiscal years.

17 Personnel costs

	2012	2011
	€	€ millions
Wages and salaries	86,255,435.06	120
Social security contributions and expenses for pensions and support (including €9,845,074.64 for pensions and similar obligations; previous year: €5 million)	17,965,528.73	14
	104,220,963.79	134

The personnel costs include pro-rated compensation for members of the Executive Board through August 20, 2012. With the change in legal form, remuneration for Executive Board members after August 20, 2012, is reported under other operating expenses.

Number of employees

	2012	2011
Average number of employees during the year	802	846

These are permanent employees.

The decline in the number of employees is due primarily to intercompany transfers to arvato direct services GmbH.

18 Amortization of intangible assets and depreciation of property, plant, and equipment

	2012	2011
	€	€ millions
Amortization of intangible assets	583,537.38	-
Depreciation of property, plant, and equipment	11,081,488.62	11
	11,665,026.00	11

No impairment losses were required.

19 Other operating expenses

	2012	2011
	€	€ millions
Other operating expenses (including €1,428,824.52 for other taxes; previous year: €1 million)	206,565,077.98	322
	206,565,077.98	322

The other operating expenses are dominated by allowances for bad debt at the Group level, currency losses, and expenses for the lease and maintenance of property. They also include unrealized losses of €2 million from currency conversions.

The expenses for Executive Board remuneration passed on from Bertelsmann Management SE after August 20, 2012, are also included in this line item.

The year-on-year decline is due primarily to a one-time effect of €89 million in the previous year from compensation for premature termination of a subscription right obligation and the removal of a profit guarantee.

20 Financial result

	2012	2011
	€	€ millions
Income from loans in non-current assets - from affiliated companies - from third parties	- 2,955,819.68	2
Interest and similar income receivable - from affiliated companies - from third parties	31,709,336.26 12,269,150.72	38 35
Impairments of investments and current securities	166,787,029.23	7
Interest and similar expenses payable - to affiliated companies - to third parties	7,259,475.50 174,112,898.53	27 177
Expenses from contributions to provisions for servicing profit participation capital	43,915,334.10	-
Interest element of addition to provisions	11,913,400.45	12
	-357,053,831.15	-147

The impairments on investments are attributable primarily to €119 million for impairments on shares in Media Communication S.A.S. in Paris and €42 million for impairments on shares in Societa Holding Industriale di Grafica S.p.A.

The impairments of current securities were €1 million.

The classification of profit participation capital as financial debt effective fiscal year 2012 means that the expected distribution to certificate bearers will be reported as an interest expense against net income and no longer under the appropriation of net income, as in the previous year.

21 Taxes on income

	2012	2011
	€	€ millions
Taxes on income	-34,556,914.26	-5
	-34,556,914.26	-5

The total tax expenditure of €36 million in 2012 includes German corporation tax, the solidarity tax surcharge, German trade tax, and foreign withholding tax. German corporation tax refunds of €1 million also contributed to net tax basis of €35 million.

Bertelsmann SE & Co. KGaA and its affiliated companies have deferred tax liabilities of €7 million due primarily to property, plant, and equipment and varying measurements of other receivables and liabilities. There are deferred tax assets of an equivalent or higher amount from loss carryforwards. The calculation of deferred taxes is based on a tax rate of 30.4 percent for German corporation tax, solidarity tax surcharge, and German trade tax. Exercising the option under HGB 274 (1) sentence 2 means waiving the recognition of net deferred tax assets.

Bertelsmann SE & Co. KGaA Supervisory Board 1)

Prof. Dr. Gunter Thielen

Chairman (until December 31, 2012)

Remuneration of Supervisory Board and Executive Board

Total remuneration of the Supervisory Board of Bertelsmann SE & Co. KGaA for fiscal year 2012 came to €2,162,000 plus statutory value-added tax. The members of the Executive Board of Bertelsmann Management SE and Bertelsmann AG (before change of legal form) received compensation of €22,434,869 in the year under review, including €11,891,501 from Bertelsmann SE & Co. KGaA (as the successor in title of Bertelsmann AG). Former members of the Executive Board of Bertelsmann Management SE and Bertelsmann AG and their survivors received compensation of €13,688,561 including €8,521,638 from Bertelsmann SE & Co. KGaA (as the successor in title of Bertelsmann AG). Bertelsmann SE & Co. KGaA and Bertelsmann Management SE reports provisions of €56,070,188 for pension obligations to former members of the Executive Board.

Fees to external auditors

Information on auditors' fees is provided in the consolidated financial statements of Bertelsmann SE & Co. KGaA, which include Bertelsmann SE & Co. KGaA as the parent company.

Proposal for allocation of unappropriated income

The general partner and the Supervisory Board of Bertelsmann SE & Co. KGaA propose to the Annual General Meeting that the unappropriated income of €861,834,000.00 be appropriated as follows:

Dividends to shareholders	€180,000,000.00
Allocation to other retained earnings	€350,000,000.00
Carryforward to new account	€331,834,000.00
	€861,834,000.00

List of shareholders

The complete list of shareholders required under HGB 285 (11) is attached as an annex to these notes.

Management Report

Business development and situation at Bertelsmann SE & Co. KGaA

Bertelsmann SE & Co. KGaA is a holding company that conducts its own limited operating activities. It is responsible for management functions of the Bertelsmann Group and the administration of investments and financing. It also provides services for some units within the Corporate Center. Its main income line items are profit distributions from its subsidiaries and proceeds from services to the same. Furthermore, it is the parent company for tax purposes of most of its German subsidiaries. Internal corporate management and reporting follow the Group's organizational structure, which consists of the operating divisions of RTL Group, Random House, Gruner + Jahr, Arvato, Be Printers, and Corporate Investments. This management report relates solely to Bertelsmann SE & Co. KGaA as the parent company of the Bertelsmann Group. The business development of the companies that fall under the consolidated financial statements of Bertelsmann SE & Co. KGaA is presented in the Bertelsmann Group management report.

Net assets, financial position, and results of operations

Bertelsmann SE & Co. KGaA's **income from other participations** of €677 million (previous year: €797 million) stems in part from income contributions from Bertelsmann Capital Holding GmbH. Bertelsmann Capital Holding GmbH contributed profits of €723 million (previous year: €671 million). The increase in expenses from the assumption of losses and the resulting decrease in income from other participations is attributable in part to the fact that the companies affiliated with Bertelsmann SE & Co. KGaA through profit and loss transfer agreements undertook impairments on shares in their affiliated companies.

Other operating income of €240 million (previous year: €190 million) is made up primarily of revenues from services and the leasing of property to subsidiaries. The year-on-year increase is due primarily to the write-up of shares in the subsidiaries of Bertelsmann Österreich GmbH and Bertelsmann Nederland B.V. totaling €49 million in the fiscal year. Other operating expenses fell to €206 million (previous year: €322 million). The previous year was burdened by a one-time effect of €89 million from compensation for premature termination of a subscription right obligation and the removal of a profit guarantee. The financial result of €-357 million (previous year: €-147 million) includes impairments of €166 million (previous year: €6 million) on financial assets. These are attributable primarily to €119 million for valuation allowances on shares in the subsidiary Media Communication S.A.S. in Paris and €42 million on shares in Societa Holding Industriale di Grafica S.p.A. The classification of profit participation capital as financial debt effective as of fiscal year 2012 means that the expected distribution of €44 million to certificate holders will be reported as an interest expense against the financial result.

Personnel expenses fell €30 million to a total of €104 million. One reason for this is that Executive Board compensation has been included in personnel expenses on a pro-rated basis only until August 20, 2012. Starting on August 20, 2012, compensation paid to Executive Board members that Bertelsmann Management SE bills to the company is reported as other operating expenses due to the change in legal form that came into effect on this date. **Write-downs** of intangible assets and tangible fixed assets of €12 million (previous year: €11 million) were in line with the previous year's level.

Net income from ordinary activities comes to €238 million (previous year: €373 million). Income tax expenses come to €35 million (previous year: €5 million).

Net income was €203 million, down from €368 million in the previous year.

Bertelsmann SE & Co. KGaA transferred fiduciary responsibility of €20 million in fiscal year 2012 to Bertelsmann Pension Trust e. V. as part of a contractual trust arrangement (CTA). These transactions were carried out to satisfy and protect pension obligations of Bertelsmann SE & Co. KGaA and certain subsidiaries. To maintain the proper economic perspective, these

funds and all assets acquired through these funds have been and will continue to be reported as the funds of Bertelsmann SE & Co. KGaA.

Financial assets rose from €11,344 million to €11,404 million in 2012. The primary reasons for this change are first a €122 million increase in the carrying amount of the shareholding in Bertelsmann Capital Holding GmbH as a result of payments made by Bertelsmann SE & Co. KGaA in connection with the profit and loss transfer agreement between Bertelsmann Capital Holding GmbH and RTL Group Deutschland GmbH, and second, the valuation allowances of shares in the subsidiary Media Communication S.A.S in Paris and in Societa Holding Industriale di Grafica S.p.A.

Accounts receivable and other assets come to €913 million (previous year: €1,153 million). These are mostly receivables from affiliates, which fell €240 million due primarily to the repayment of a loan in the amount of €142 million from Bertelsmann SE & Co. KGaA to Reinhard Mohn GmbH, Gütersloh. The valuation allowances undertaken on Group receivables increased by €7 million.

With capital stock unchanged from the previous year at €1,000 million, total **equity** was €6,924 million as of December 31, 2012, corresponding to 59 percent of assets or 49 percent of total assets.

Starting in fiscal year 2012, the profit participation capital of €413 million is reported under financial debt, which is also the reason for the lower equity ratio. The terms of the issued profit participation certificates state that the holders cannot terminate them before June 30, 2017. As of December 31, 2012, the capital availability will fall below the five-year period and can therefore no longer be seen as long-term.

The general partner and Supervisory Board of Bertelsmann SE & Co. KGaA propose to the Annual Shareholders' Meeting that from the net profit of €862 million, a distribution of €180 million be paid to shareholders and €350 million be set aside for other retained earnings.

Provisions increased year on year by €5 million to €334 million.

Net financial debt of Bertelsmann SE & Co. KGaA decreased by €212 million to €2,177 million in fiscal 2012 despite the first-time incorporation of profit participation capital. Bertelsmann bought back its own promissory notes with a nominal value of €30 million in fiscal 2012. In addition, Bertelsmann swapped promissory notes maturing in 2014 with a nominal value of €60 million for promissory notes with the same value maturing in 2019. Bertelsmann also took advantage of low interest rates in fiscal 2012 for a long-term capital increase. In June 2012, a private placement in the amount of €75 million was carried out as part of the existing Debt Issuance Program with a twenty-year term. This was increased by a further €25 million in July 2012 to a total of €100 million. Also in July 2012, a benchmark bond with a ten-year term was issued in the amount of €750 million.

The nominal value of the profit participation capital was €301 million. Including the premium, this yielded profit participation capital of €413 million, the same as in the previous year. The 2001 profit participation certificates (ISIN DE0005229942) account for 94 percent of notional profit participation capital, while the 1992 profit participation certificates (ISIN DE0005229900) account for the remaining 6 percent.

Other liabilities stand at €3,132 million (previous year: €2,691 million). These consist primarily of liabilities to affiliates, which increased year on year by €433 million to €3,004 million due primarily to the increase in a loan granted by Bertelsmann Capital Holding GmbH, Gütersloh.

Bertelsmann SE & Co. KGaA had 802 **employees** (previous year: 846) on average in fiscal year 2012. These are permanent employees.

Strategy

Bertelsmann develops media and communication solutions that excite people around the world and offer customers innovative solutions. Bertelsmann occupies leading market positions in its core sectors of television, books, newspapers, services, and

print. Bertelsmann's primary objective is continuous growth of the company's value through a sustained increase in profitability (see section "Value-Oriented Management System)".

As part of a strategic realignment, Bertelsmann aims to achieve a more rapidly growing, digital, and international portfolio. Bertelsmann will increasingly focus on penetrating business segments according to defined investment criteria. These should complement the traditional businesses and provide a broader-based revenue structure overall. The Executive Board, Supervisory Board and shareholders agreed to the new Group strategy in Autumn 2012 after comprehensive analyses and a Group-wide dialog process conducted over several months involving all relevant Group bodies. As well as a portfolio and competition analysis, the strategy is essentially based on four global megatrends which are significant for the further development of the existing businesses and are opening up new development opportunities for the Group: the continuing digitization, a two-speed global economy in established as well as emerging markets, an increasing global demand for high-quality education, and the shift towards business process outsourcing solutions.

On this basis, four strategic approaches were defined which will be used to realign Bertelsmann's strategy over the next few years: strengthening core businesses (investments in creative businesses, exploiting opportunities for consolidation), driving forward the digital transformation, developing growth platforms within the divisions and at the Group level (content rights management, education and business information), and expanding in growth regions (China, India, and Brazil).

The success of Bertelsmann in the future will continue to be driven by content-based and entrepreneurial creativity which is why the Group continues to invest in the creative core of its businesses. Clear investment criteria apply to the development of the portfolio. Businesses in which Bertelsmann invests should have long-term stable growth, global reach, digital business models, scalability, and low vulnerability to economic cycles.

In fiscal 2012, Bertelsmann already achieved considerable success in implementing its strategic priorities. RTL Group launched more new channels than ever before, including RTL Nitro in Germany and 6ter in France. In the book publishing sector, a merger was agreed between Random House and Penguin Group to push forward the digital transformation even faster, to develop new distribution channels, and to be able to build up new businesses in growth regions. The transaction is due to be completed in the second half of 2013, subject to approval from the antitrust authorities. Random House Mondadori was fully acquired in order to improve access to the South American book markets, among other things. Gruner + Jahr bundled the digital businesses in the core German market. Arvato focused on rapidly-growing services by spinning off the main printing activities. Through the "University Ventures" education fund, Bertelsmann invested in the education business and acquired participations in innovative companies in Europe and in the US, who are developing tailor-made educational programs or offering recognized online study courses in partnership with universities. BMG grew through the acquisition of further catalogs and artist signings. The Group also expanded its business activities in its declared growth markets of China, India, and Brazil.

Bertelsmann needs to have qualified employees at all levels of the Group to ensure its strategic and financial success. To achieve this, HR policy measures were defined and strategic steps taken in the period under review that are in accordance with and support the corporate strategy.

The compliance with and achievement of the strategic development priorities are continuously examined by the Executive Board at divisional level through regular meetings of the Strategy and Business Committee and as part of the Strategic Planning Dialog between the Executive Board and the Supervisory Board. In addition, relevant markets and the competitive environment are analyzed on an ongoing basis in order to draw conclusions concerning the further development of Group strategy. The Executive Board is also supported by the Group Management Committee (GMC) on issues of corporate strategy and development. This committee is composed of executives representing key businesses, countries, regions, and selected Group-wide functions.

Value-Oriented Management System

The central performance indicator for assessing the profitability from operations and return on invested capital is Bertelsmann Value Added (BVA). BVA measures the profit realized above and beyond the appropriate return on invested capital. This form of value orientation is reflected in strategic investment and portfolio planning and the management of Group operations and is the basis for management compensation.

All controlling values are calculated according to the IFRS. For more details see the annual report of the Bertelsmann Group.

Innovations

In terms of the creation of marketable products and services, research and development (R&D) is an integral part of Bertelsmann's business strategy. The Bertelsmann divisions mainly conduct these activities.

Financial Guidelines

The primary objective of Bertelsmann's financial policy is to achieve a balance between financial security, return on equity, and growth. For this, Bertelsmann bases its financing policy on the requirements of a "Baa1/BBB+" credit rating and the associated qualitative and quantitative criteria. Credit ratings and capital market transparency make a considerable contribution to the Group's financial security and independence.

Capital allocation is made centrally by Bertelsmann SE & Co. KGaA and its financing company, Bertelsmann U.S. Finance LLC. Bertelsmann SE & Co. KGaA provides the Group companies with liquidity and manages the issuance of guarantees and letters of comfort for Group companies. The Group consists largely of a single financial unit, thereby optimizing capital procurement and investment opportunities. The Group's balanced maturity profile with a high proportion of medium and long-term maturities also helps to ensure financial flexibility.

Financing Activities

Bertelsmann bought back its own promissory notes with a nominal value of €30 million in fiscal 2012. In addition, Bertelsmann swapped promissory notes falling due in 2014 with a nominal value of €60 million for promissory notes with the same value falling due in 2019. Moreover, Bertelsmann used the low interest rate in fiscal 2012 to raise long-term capital. In June 2012, a private placement was carried out under the existing Debt Issuance Program in the amount of €75 million with a twenty-year term and this was increased by a further €25 million in July 2012 to a total of €100 million. Also in July 2012, a benchmark bond with a ten-year term was issued in the amount of €750 million. The bond, which is listed in Luxembourg, has a fixed coupon of 2.625 percent. In September 2012, a bond with an issue volume of €500 million was redeemed. €45 million of this bond was already acquired in advance via the capital market.

Significant Events after the Balance Sheet Date

On January 1, 2013, Christoph Mohn became the new Supervisory Board Chairman of Bertelsmann SE & Co. KGaA. In August 2012, the Board elected Christoph Mohn as the successor to Gunter Thielen, who resigned his office at the end of 2012 and left the Board. Parallel to this, the Supervisory Board of Bertelsmann Management SE (general partner of Bertelsmann SE & Co. KGaA) also elected Christoph Mohn as its new Chairman. In this capacity, Mr. Mohn also succeeded Gunter Thielen as of January 1, 2013.

In February Bertelsmann SE & Co. KGaA agreed to give a loan to the affiliate company Prinovis Ltd. & Co. KG with a value up to €105 million.

On 24 February 2013, RTL Group's Board of Directors decided to distribute an interim dividend, comprising an ordinary dividend of €5.1 per share and an extraordinary dividend of €5.4 per share. The dividends are paid on 7 March 2013.

Risks and Opportunities Risk Management System

The purpose of the Bertelsmann risk management system (RMS) is the early identification, evaluation, and control of internal and external risks. The internal control system (ICS), an integral component of the RMS, controls and monitors the risks that have been identified. The aim of the RMS is to identify, at an early stage, material risks to the Group so that countermeasures and controls can be implemented. Risks are potential internal and external developments that can negatively affect the achievement of strategic, operational, reporting-related and compliance-related objectives of the Group.

The risk management process complies with recognized national and international norms and is organized in subprocesses of identification, quantification, management, control, and monitoring. A major element of risk identification is the risk inventory that lists significant risks year by year, from the profit center level upward, and then aggregates them step by step at the division and Group level. This ensures that risks are registered where their impact would be felt. There is also a Group-wide reassessment of critical risks every six months and quarterly reporting with negative feedback. Ad hoc reporting requirements ensure that significant changes in the risk situation during the course of the year are brought to the attention of the Executive Board. Identified and quantified risks are compared against management and control measures to determine the so-called net risk. A three-year risk assessment horizon is applied to enable the timely implementation of risk management measures. Risk monitoring is conducted by Group management on an ongoing basis. The RMS, along with its component ICS, is constantly undergoing further development and is integrated into ongoing reporting to the Executive Board and Supervisory Board of Bertelsmann SE & Co. KGaA. Corporate risk management committees and divisional risk meetings are convened at regular intervals to ensure compliance with statutory and internal requirements.

Under section 91 (2) of Germany's Stock Corporation Act (AktG), the auditors inspect the risk early warning system for its capacity to identify developments early on that could threaten the existence of Bertelsmann SE & Co. KGaA, then report their findings to the Supervisory Board. Corporate Audit conducts ongoing reviews of the adequacy and functional capability of the RMS in the divisions of Random House, Arvato, Be Printers, and in the Corporate Investments and Corporate Center segments. The risk management systems of RTL Group and Gruner + Jahr are evaluated by the respective internal auditing departments of those divisions and by external auditors. Any problems that are identified are promptly remedied through appropriate measures. The Bertelsmann Executive Board defined the scope and focus of the risk management system based on the specific circumstances of the company. However, even an appropriately designed and functional RMS cannot guarantee with absolute certainty that risks will be identified and controlled.

Accounting-Related Risk Management System and Internal Control System

The objectives of the accounting-related RMS and ICS are to ensure that external and internal accounting is proper and reliable in accordance with applicable laws and that information is made available without delay. Reporting should also present a true and fair view of Bertelsmann's net assets, financial position, and results of operation. The following statements pertain to the consolidated financial statements (including the Notes and Management Report), interim reporting, and internal management reporting.

Laws, accounting standards and other pronouncements are continually analyzed for their relevance to and effects on the annual financial statements. Documents such as the accounting guideline for individual financial statements subject to the German Commercial Code (HGB) communicate relevant requirements and, together with the financial statement calendar, form the basis of the process for preparing financial statements at Bertelsmann SE & Co. KGaA and the companies affiliated directly or indirectly with Bertelsmann SE & Co. KGaA through profit and loss transfer agreements. The Group's internal rules for accounting and the preparation of financial statements are made available without delay to all employees involved in the accounting process. Employees involved in the accounting process undergo regular training. Supplemental procedures and standardized reporting formats ensure a complete and accurate record of all accounting-related matters. Bertelsmann SE & Co. KGaA and its subsidiaries are responsible for complying with applicable guidelines and procedures and ensuring that their accounting-related processes and systems operate properly and on schedule. They are supported and monitored in this

capacity by the Corporate Center and the accounting competence center. Internal controls defined by risk category are embedded in the accounting process.

The accounting-related ICS encompasses safeguards aimed at both prevention and discovery, including manual and IT-supported coordination processes, functional separation, the four-eye principle, and general IT measures such as controlled access to IT systems, change management and change monitoring. Circumstances that could lead to significant misinformation in the individual financial statements are centrally monitored by employees of Bertelsmann SE & Co. KGaA and the accounting competence center and verified by external experts as required. Central contact persons from Bertelsmann SE & Co. KGaA and the accounting competence center are also in continuous contact with the local subsidiaries to ensure that information is presented in a manner that complies with commercial and fiscal guidelines and that reporting deadlines and obligations are met. Another aim in introducing a globally binding control framework for the decentralized accounting processes is the realization of a standardized format for the accounting-related ICS at the level of the local accounting departments of all fully consolidated Group companies.

Corporate Audit and the internal auditing departments of RTL Group and Gruner + Jahr evaluate the accounting-related processes and the self-assessments submitted by the companies as part of their auditing work. As part of the auditing process, the Group auditor also reports to the Bertelsmann SE & Co. KGaA Supervisory Board Audit and Finance Committee about any significant vulnerabilities of the accounting-related internal control system that were identified during the audit and the findings regarding the risk early warning system.

Significant Risks to the Group

Bertelsmann is exposed to a variety of risks. The major risks to Bertelsmann identified in the risk reporting are outlined in the table below.

Overview of Major Risks to the Group

Type of risk	Potential financial loss (expected value)	
Strategic and operational risks		
Changes in market environment	Significant	
Customer risks	Significant	
Economic development	Significant	
Supplier risks	Significant	
Employee-related risks	Moderate	
Pricing and discounting	Moderate	
Audience and market share	Moderate	
Technological challenges	Moderate	
Legal and regulatory risks	Moderate	
Financial market risks	Low	

Given the diversity of core business fields in which Bertelsmann is active and the corresponding diversity of risks to which the various divisions are exposed, the key strategic and operational risks to the Group identified below are broken down by business segment. This is followed by an outline of legal and regulatory risks and of financial market risks. These risks are largely managed at the corporate level.

Strategic and Operational Risks

The rate of growth of the global economy slowed during 2012. There is continuing uncertainty over the future development of the European sovereign debt crisis even if there are signs that the situation is easing somewhat. The economic slowdown in important European core markets is having an increasing impact on business performance. Bertelsmann expects business development for 2013 to remain stable or to decline marginally in view of the rather weak economic growth, continuing uncertainty, and higher investments. In addition to the risk from economic development, other significant Group risks include

the risks from changes in the market environment and customer and supplier risks. How these risks develop depends, among other things, to a large extent on changes in customer behavior due to factors such as the digitization of media, the development and implementation of products and services by current and future competitors, bad debt losses, and default and interference along the production chains in individual sectors such as IT. IT risks could emerge through external threats, but also through the complexity of non-standardized processes. Bertelsmann's exposure to employee-related risks and risks from pricing and discounting, audience and market shares, and technological challenges is moderate.

RTL Group is exposed to diverse risks. Economic development directly impacts the advertising market and therefore RTL Group revenue. A decrease in audience shares could lead to decreasing revenues. RTL Group actively monitors international market changes and program trends increasingly in the digital world, where audiences generally have more choice, while market entry barriers are reduced. Higher competition in program acquisition, ongoing audience fragmentation, and expansion of platform operators may also impact RTL Group's ability to generate revenues. Apart from potential cost increases triggered by content suppliers, the business can be impacted by the risk of losing key suppliers of content and customers. RTL Group's strategy is thus to further diversify its business by establishing complementary families of channels and utilizing the opportunities presented by digitization.

The book market is facing a transformation process. Particularly the transition to digital and the changing pricing models are creating both challenges and opportunities for Random House. The concentration on major customers represents a significant risk for Random House. Other risks arise from the entry of non-traditional publishers into the market and the decline in retail space in bricks-and-mortar bookstores. Higher paper prices on the supplier side and the economic uncertainty in markets, where Random House is active, are further risks. Random House is facing increased pressure on margins both for e-books as well as for physical books.

Apart from the economic development, the risks from a changing market environment constitute the greatest risks for Gruner + Jahr. A deterioration of the overall economic environment can lead to declining advertising and circulation revenues, and the probability of increasing bad debt losses and loss of customers is growing. Higher discounts as a result of trading models used by advertising agencies and the increasing significance of digital products is leading to falling margins. There is also the risk of further losses in the overall advertising market share of its popular magazines. Given the increasing competition, there is a general threat of price declines in the advertising markets as well as in the print sector. On the supplier side, there is still a risk from rising paper prices that in some circumstances can only be passed along to customers to a limited extent.

Arvato sees itself particularly exposed to risks from a changing market environment, economic risks, as well as risks from customer and supplier relationships. The markets in which Arvato operates (primarily replication) are characterized by overcapacities and show sustained price pressure. In other areas, competitors are following Arvato's strategy by expanding their value chains. New competitors entering the market could intensify the competitive pressure and lead to lower margins. A worsening of the economic environment could result in declining revenues and thus lower contribution margins which would necessitate cost-cutting measures and capacity downsizing. On the procurement side is the risk that the procured intermediate products could be of inferior quality, leading to corresponding subsequent costs. Furthermore, rising energy prices in Germany which can only be passed on to customers to a certain extent and falling waste material revenues are putting pressure on Arvato's margins. Other risks include the loss of key customers and bad debt losses. The loss of key customers was a relatively minor risk in the past thanks, in particular, to active key account management, long-term contracts, and integrated service elements. The ongoing trend toward digitization entails further risks for individual customer segments of Arvato, particularly in manufacturing and distribution of physical products.

The economic environment of Be Printers is characterized by shrinking markets and overcapacities. Risks can arise from a continuing market concentration leading to tougher price competition and lower margins. In structural terms, there is a greater dependence on a few major customers. A deterioration in the economic environment may lead to declining circulations with a negative impact on earnings. The same applies to the increasing spread of digital end devices which is resulting in a decline in

printed media. There are further risks associated with rising raw materials prices – particularly for paper – that cannot be passed onto customers.

Corporate Investments includes, among other things, the Group's remaining book club and direct marketing activities. Other significant risks alongside economic risks include purchasing power, consumer behavior, customer activation, and retention.

Finally, it should be noted that due to demographic change a greater emphasis in the risk reporting is placed on employeerelated risks such as a shift in the age distribution of the workforce, challenges in recruiting qualified personnel, and the departure of top executives. This risk applies to all segments.

Legal and Regulatory Risks

Bertelsmann, with its worldwide operations, is always exposed to a variety of legal and regulatory risks ranging from litigation to varying interpretations of tax assessment criteria.

RTL II filed, in November 2008, legal actions against IP Deutschland, a wholly owned subsidiary of RTL Group, and Seven One Media ("SOM") as a result of the proceedings in 2007 of the German Federal Cartel Office against the discount scheme agreements ("share deals") offered by IP Deutschland and SOM. MTV Networks (Viacom) and Tele München TV (Tele 5) filed similar actions against IP Deutschland in August 2009 and in December 2009, respectively. RTL II, Viacom, and Tele 5's claims are currently limited to access to information on the basis of which the claimants want to evidence that they suffered damages from these discount schemes. Courts in Munich and Düsseldorf decided in first instance either to dismiss the claims or to order expert opinions.

At the end of January 2013 Kabel Deutschland (KDG) appealed a decision of the Germany Federal Cartel Office to settle a case in accordance with section 32b of the German Act Against Restraints of Competition following commitments of the channels of Mediengruppe RTL Deutschland to broadcast digital channels in standard quality unencrypted and to refrain from certain restrictions on the usage of digital signals in standard quality. KDG did not yet provide the reasoning of the appeal.

Since 2011, the EU Commission and the U.S. Department of Justice have been conducting proceedings against five publishing houses and Apple on grounds of alleged anti-competitive practices relating to the sale of e-books. No investigations into Random House/Bertelsmann are ongoing. In an initial move, three of the five book publishers implicated in the proceedings agreed to settlements with the U.S. Department of Justice; these have since been confirmed by the courts. The EU Commission has negotiated and agreed settlements with four book publishers and Apple. The Penguin Group and another publishing house subsequently reached a similar settlement with the U.S. Department of Justice. The EU Commission proceedings against the Penguin Group have not yet been completed. After the settlement is confirmed by the court and after completion of the planned merger, the new Penguin Random House company will also be bound to the settlement.

Foreign investments in media companies in the People's Republic of China are subject to restrictions. In order to comply with local legal provisions, some of the Bertelsmann participations in China are held by trustees. Bertelsmann has agreements with these trustees with respect to the securing of Bertelsmann's rights. This type of structure is common for investments in China and has been tolerated by the Chinese authorities for many years. However, a basic risk exists that it will not be possible to safeguard such structures through Chinese courts if the People's Republic should change its policies towards foreign investment and, for example, no longer recognize off-shore investments in general or in the media area in particular. In addition, it cannot be ruled out that Chinese authorities or courts in the future will interpret existing provisions differently from the previous practice. In the event that legal violations can be proven, in an extreme case, Bertelsmann could be exposed to considerable fines and the revocation of business licenses to immediate closure of participations in China.

Aside from the matters outlined above, no significant risks to Bertelsmann are apparent at this time.

Financial Market Risks

As an international corporation, Bertelsmann is exposed to various forms of financial market risk, especially interest rate and currency risks. These risks are largely controlled centrally on the basis of guidelines established by the Executive Board. Derivative financial instruments are used solely for hedging purposes. Bertelsmann uses currency derivatives mainly to hedge recorded and future transactions involving foreign currency risk. Some firm commitments denominated in foreign currency are partially hedged when they are made, with the hedged amount increasing over time. A number of subsidiaries are based outside the euro zone. The resulting translation risk is managed based on economic debt in relation to operating EBITDA (leverage factor). Bertelsmann's long-term focus is on the maximum leverage factor permitted for the Group. Foreign currency translation risks arising from net investments in foreign entities are not hedged. Interest rate derivatives are used centrally for the balanced management of interest rate risk. The cash flow risk from interest rate changes is centrally monitored and controlled as part of interest rate management. The aim is to achieve a balanced ratio of different fixed interest rates by selecting appropriate maturity periods for the originated financial assets and liabilities affecting liquidity, and through the ongoing use of interest rate derivatives. The liquidity risk is regularly monitored on the basis of the planning calculation. The existing syndicated loan as well as appropriate liquidity provisions form a sufficient risk buffer for unplanned payments. Counterparty risks exist in the Group in invested cash and cash equivalents and in the default of a counterparty in derivatives transactions. Financial transactions and financial instruments are restricted to a firmly defined group of banks with an excellent credit rating. The guidelines for investing cash and cash equivalents is continuously reviewed and expanded to reflect current economic developments. The financial investments are generally made on a short-term basis so that the investment volume can be reduced if the credit rating changes.

Significant Changes Compared with the Previous Year

Overall, the Group risks are essentially the same as those existing as of December 31, 2011. Nonetheless, the significance of individual types of risk has changed. The highest uncertainty is now associated with the risks from changes in the market environment. Risks from audience and market shares and technological challenges have become more significant. The overall risk position increased compared with the previous year.

Overall Risk

Thanks to the diversification of Group businesses, there are no concentration risks stemming from dependency on individual business partners or products in either procurement or sales. The Group's financial position is solid, with liquidity needs currently covered by ready cash and available lines of credit.

No risks endangering Bertelsmann's continued existence were identified in fiscal 2012. Nor are there any substantial risks discernible from the current perspective that could threaten the continued existence of the Group.

Opportunity Management System

An efficient opportunity management system enables Bertelsmann to increase its corporate success in the long-term and to exploit potential in an optimum way. The opportunities are determined as possible internal company and external developments or events that can positively influence the expected business development. The opportunity management system, like the risk management system, is an integral component of the business processes and company decisions. During the planning process, the significant opportunities are determined each year, from the profit center level upward, and then aggregated step by step at the division and Group level. By recording and controlling them on several reporting levels, opportunities that arise can be identified and used at an early stage. In addition, a transparent and inter-divisional overview of Bertelsmann's current opportunities position is created. A review of major changes in opportunities is conducted at divisional level every six months. In addition, the largely decentralized opportunity management is coordinated by central departments in the Group. The Executive Board department of Business Development and New Businesses continuously pursues strategic opportunity potential and seeks to derive synergies through targeted cooperations in the individual divisions. The inter-divisional experience transfer is reinforced by regular meetings of the Group Management Committee.

Opportunities

While the opportunities associated with a positive development may be accompanied by risks, certain risks are entered into in order to exploit potential opportunities. This close link to the key Group risks offers strategic, operational, legal, regulatory, and financial opportunities for Bertelsmann.

Strategic opportunities can be derived primarily from the Group's four strategic approaches. Strengthening core businesses, driving forward the digital transformation, developing growth platforms, and expansion in growth regions constitute the most important growth opportunities for Bertelsmann (see section "Strategy"). Furthermore, there is potential for efficiency improvements, possibly more favorable economic development, and individual operational opportunities in the existing divisions. For RTL Group, the TV advertising markets in some core markets could develop better than expected. The many different application possibilities for the increasingly digital means of distribution allow RTL Group to target their end customers and advertising customers more effectively. At Random House, successful debut publications, strong market growth, and higher e-book revenues offer further opportunities. Gruner + Jahr has opportunities in international markets through new and digital businesses. Furthermore, the advertising and circulation revenues may develop better than expected. At Arvato, the ongoing trend toward outsourcing and the successful development of new businesses is creating opportunities. Above all, the global growth of e commerce operations and the attractive sector of high tech and internet customers represents additional growth potential for Arvato. For Be Printers, opportunities lie in continuing to specifically address growing market segments.

Changes to the legal and regulatory framework may also create additional opportunities.

The financial opportunities are largely based on a favorable development of interest and exchange rates from Bertelsmann's point of view.

Outlook

Anticipated Overall Economic Development

Overall, the global economy will slowly start to recover after the downturn. According to the winter forecast by the Kiel Institute for the World Economy (IfW), global production will expand 3.4 percent in 2013, after 3.2 percent growth in 2012. A key influencing factor remains the future development of the European sovereign debt crisis. Stronger global growth of 3.9 percent is again expected for 2014.

The lfW expects that the real economic growth in the United States will be about 1.5 percent in 2013 and about 2.5 percent in 2014. In the euro zone, the recession will initially continue and the real gross domestic product will shrink by 0.2 percent in 2013. The economic development of the individual countries continues to show a very mixed picture. However, positive growth of 0.9 percent is already expected for 2014. For the UK, the lfW expects real economic growth of 0.6 percent in 2013 and 1.2 percent in 2014. Similarly, the German economy will not be able to avoid a temporary downturn. The lfW expects real GDP to grow by 0.3 percent in 2013, but the real increase is expected to be about 1.5 percent in 2014.

The forecast assumes that tensions in connection with the sovereign debt crisis in the euro zone will gradually ease, and business confidence will not be undermined by any further deterioration in the economic situation.

Anticipated Development in Relevant Markets

The global media industry is primarily influenced by global economic development and the resulting growth dynamic. The continued trend toward digitization of content and distribution channels, changes in media usage, and the increasing influence of threshold countries will continue to present risks and opportunities in the years to come. Through the intended transformation of the Group portfolio according to the four strategic approaches, Bertelsmann expects to benefit to an increasing extent from the resulting opportunities. Through its businesses, Bertelsmann operates in a variety of different

markets and regions whose developments are subject to a range of factors and do not respond in a linear fashion to overall economic tendencies. The following takes into account only those markets and regions large enough to be relevant for forecasting purposes and whose expected development can be appropriately aggregated and evaluated.

In 2013 the uneven development of the advertising markets is expected to continue. The conservative expectations as well as the weak basic macro-economic trends in a number of important core countries are also influenced by the low visibility in the advertising market. A generally stable development is expected for the book markets in the United States, the UK, and Germany; meanwhile, the shift to digital will continue. The magazine business in 2013 is expected to show a continued decline of the advertising and circulation markets in Germany, France and Spain, while significant albeit slightly weaker growth is expected in the Chinese advertising market. In 2013, the services markets are expected to achieve growth similar to 2012, and the storage media markets are expected to decline at a faster rate due to the globally falling demand and increasing digitization Meanwhile, the print markets for magazines, catalogs, and promotional materials in Europe and for books in the United States are expected to continue to decline in 2013.

Expected Trend of Revenue and Earnings

Given the persistently uncertain economic environment, forecasts for the coming year are fraught with significant risks. The following expectations are based on a normalization of the overall economic situation and assume that most of the predictions of the research institutions will be realized.

The economic expectations for the geographic core markets of Western Europe and the United States form the basis of Bertelsmann's expected business development in fiscal years 2013 and 2014. The European advertising markets that are important for Bertelsmann are particularly affected by the uncertain economic situation. Correspondingly, an economic downturn would have a negative impact on advertising revenues. With the revenue and earnings share within the euro zone expected to remain at around 75%, the future development of Group revenues and operating EBIT is initially derived from the forecasted economic development. The IfW assumes that nominal GDP in the euro zone will increase by 1.7 percent in 2013 and 2.7 percent in 2014. The OECD predicts that nominal GDP in the euro zone will increase by 1.2 percent in 2013 and 2.4 percent in 2014. In real economic terms, the euro zone remains in recession. The IfW estimates that the European economy will shrink by 0.2 percent in real terms in 2013 and that the economic downturn will not end until 2014 when real growth of 0.9 percent is expected. In view of the subdued economic expectations and the remaining uncertainty, the business performance of Bertelsmann in 2013 is expected to be in the range between real and nominal GDP development of the euro zone. Furthermore, the expectations of a normalized business development in the book business are characterized by the exceptional bestseller performance in fiscal 2012. It will not be possible to maintain the record figures achieved at Random House in 2012 in subsequent years. In view of this, Bertelsmann is expecting Group revenues to remain stable or to decline slightly. The operating EBIT will also be slightly below the previous year's figure in fiscal 2013 due to budgeted start-up costs. With the anticipated economic recovery of the euro zone in 2014, moderate growth of Group revenues and operating EBIT is expected. Irrespective of the continuing market uncertainty, the objective remains an average Group-level return on sales of at least 10 percent in 2013 and 2014. Investments in intangible assets and fixed and financial assets for fiscal 2013 are expected to be in line with the 2012 level (€567 million). Depending on how the economy develops, Bertelsmann does not currently anticipate interest rate changes to have any material impact on the average financing costs of medium to long-term financing. The liquidity situation is expected to be appropriate in the forecast period.

Looking to 2013, economic conditions remain challenging, in line with local market conditions, and visibility continues to be limited. Facing this environment, RTL Group has a clear focus on maintaining its leadership positions and delivering financially while pursuing opportunities in broadcasting, content and digital which will develop the business further in future years. If net advertising market and market shares of RTL Group remain unchanged, Bertelsmann would see RTL Group's revenue and Operating EBIT on levels not materially different from the previous year. After the record year in 2012, Random House assumes that fiscal 2013 will again show normalized revenues and operating EBIT. This means that revenues and operating EBIT will fall sharply year on year. The future business performance will be boosted by a continuing stable situation in the

book markets and constantly growing e-book sales. In fiscal 2013, Gruner + Jahr expects advertising and circulation revenues in the European core markets to continue to decline. The moderate decline in revenues and the strong decline in operating EBIT can only be partially offset by the increasing business in the digital sector and in the growth regions of China and India. In fiscal 2013, Arvato will profit from the solid growth of the service businesses and the expansion of new businesses. Revenue will only increase slightly, however, due to the declining replication businesses. Year on year, Arvato's operating EBIT should be slightly higher despite higher start-up losses for new businesses. In fiscal 2013, Be Printers expects continued volume and price pressure in the print business and lower year-on-year revenues. Operating EBIT will also decline significantly despite further cost optimizations due to a reduction of the useful lives of property, plant and equipment.

If the economic expectations are not accurate, which cannot be excluded given the current situation on the financial markets and the possible consequences for the real economy, there is a risk that the actual development may vary greatly from the aforementioned expectations. For this reason, the Executive Board has made provision for implementing contingency measures if the development is worse than expected. Given the fact that the divisions have prepared corresponding adjustments, it may be possible to absorb a major portion of the revenue decline through cost-cutting measures. In an extreme scenario, the expected compensation rate (cost decline compared to revenue decline) would be over 50 percent and the return on sales would be above 9 percent. Thanks to Bertelsmann's solid financial basis and adequate liquidity, the materialization of this scenario would initially have only a slight negative effect on Bertelsmann's net assets and financial position. Depending on the scope and duration of the economic slowdown, however, the effects on Bertelsmann's business development could be expected to be more negative.

These forecasts are based on Bertelsmann's current business strategy as outlined in the "Business and Economic Conditions" section. In general, the forecasts reflect a careful consideration of risks and opportunities and are based on operational planning and the medium-term outlook for the corporate divisions. All statements concerning potential economic and business developments represent opinions advanced on the basis of the information that is currently available. Should underlying suppositions fail to apply and/or further risks arise, actual results may differ from those expected. Accordingly, no assurances can be provided concerning the accuracy of such statements.

Dependent companies report

The Executive Board of Bertelsmann Management SE, the general partner, has voluntarily submitted a dependent company report to the Supervisory Board in accordance with section 312 (1) of the German Stock Corporation Act, in which it states that the Company received appropriate compensation for all transactions based on the circumstances that were known when the respective transactions were conducted.

(Dr. Thomas Hesse)	(Anke Schäferkordt)	

Auditor's Report

We audited the annual financial statements, comprising the balance sheet, the income statement and the notes to the financial statements, together with the bookkeeping system and the management report of Bertelsmann SE & Co. KGaA, Gütersloh, for the business year from January 1 through December 31, 2012. Maintenance of the books and records and the preparation of the annual financial statements and the management report in accordance with German commercial law and supplementary provisions of the articles of incorporation are the responsibility of the management board of Bertelsmann Management SE as managing partner. Our responsibility is to express an opinion on the annual financial statements, together with the bookkeeping system and the management report, based on our audit.

We conducted our audit of the annual financial statements in accordance with Section 317 HGB [Handelsgesetzbuch - German Commercial Code] and German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer (IDW). Those standards require that we plan and perform the audit such that misstatements materially affecting the presentation of the net assets, financial position and results of operations in the annual financial statements in accordance with [German] principles of proper accounting and in the management report are detected with reasonable assurance. Knowledge of the business activities and the economic and legal environment of the Company and expectations as to possible misstatements are taken into account in the determination of audit procedures. The effectiveness of the accounting- related internal control system and the evidence supporting the disclosures in the books and records, the annual financial statements and the management report are examined primarily on a test basis within the framework of the audit. The audit includes assessing the accounting principles used and significant estimates made by the management board of the managing partner Bertelsmann Management SE as well as evaluating the overall impression given by the annual financial statements and management report. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion and based on the findings of our audit, the annual financial statements comply with the legal requirements and supplementary provisions of the articles of incorporation and give a true and fair view of the net assets, financial position and results of operations of the Company in accordance with [German] principles of proper accounting. The management report is consistent with the annual financial statements and as a whole provides a suitable view of the Company's position and suitably presents the opportunities and risks of future development.
